

Just Ageing? seminar 23 June 2009

Equality and the life course: examining the future of ageing

Our first seminar challenged our attitudes about ageing. It examined our assumptions about the physiological and social experience of ageing, and drew out the implications of this for different demographic groups in the context of current political, social and economic change.

Professor Tom Kirkwood CBE, Director of the Institute for Ageing and Health at Newcastle University delivered the keynote in which he delivered a new [think piece on the future of ageing](#).

You can also download [Professor Kirkwood's presentation](#) at the seminar.
